

A Little Bit About Me

When I'm not teaching, you'd find me riding horses, shopping, traveling, or hanging out with my friends. I love meeting new people along the way of my journey. I enjoy doing my extracurricular activities when I can. I also like to wind down and read books or go on a hike with my golden doodle.

Meet Ms. Jaya

Hi! I'm Ms. Jaya

Welcome!

I was born in Pocatello, Idaho - which is a small town near Blackfoot. I moved to Colorado with my family in 2007, so I basically grew up in Colorado. I go to college and I'm planning on doing something in the medical field with kids. Right now, I'm getting an associate degree in mechanical engineering and hopefully I can further this career by getting a bachelor's degree in biomedical engineering and mechanical engineering. However, who knows what the future holds for me. I've always loved school and learning new things every day, and I'm always curious and asking a lot of questions on every opportunity that I get ever since I was a little kid. I was always like this, and I think I'll always be.

I'm excited about this opportunity to work at Tiny Hearts Academy! I am very eager to get to know each child individually, and I am so happy I can be a part of their learning journey! My colleagues have been amazing, and I hope to get to know them individually along the way. Their support system, and their compassion has been astonishing to me.

Sincerely,

Ms. Jaya
