

Dear Family,

We are very excited to welcome you and your child to our Toddler Program!

Our goal is to provide an all-around learning experience specifically designed for every developmental stage of education. The Toddler Program at Tiny Hearts embraces a number of educational philosophies from Montessori to STEM. We offer theme-based units, learning activities, enrichment lessons and fun, engaging lesson plans that include core academic subjects from math, reading, writing, foreign languages, to other academic components such as arts and crafts, music, dramatic play, and physical activities.

In this Program, children learn through a balance of play, teacher-facilitated activities, and repetition. A fully balanced day, reassuring routine, and stimulating activities provide toddlers with a sense of security. It is the optimum environment for learning at this level of development! Our Program allows children to work at a challenging level, yet at their pace while enjoying stories, toys, music, games, costumes, building blocks and more, all designed to develop language and fine / gross motor skills.

The unit lesson plans will be posted monthly on the Parent Board located in the classroom. Additional Parent Resources are included in our monthly newsletters and [Pinterest page](#). Below is a list of supplies needed for a successful learning environment. Please have these ready on your child's first day **labeled with your child's name / initials**.
