# Meet Ms. Hailey

Hi! I'm Ms. Hailey

Welcome!

I'm originally from California, where my love for working with children blossomed through dance. I started dancing when I was 3 years old and around 15 years old, I became an assistant and substitute teacher for the studio I grew up in. Since then, I've loved working with kids! Watching them grow and develop new skills is my favorite part! My love for both children and dance followed me to college where I continued my dance training and got a BA in Child and Adolescent Development. I'm excited to be a part of the THA family! I am looking forward to getting to know all of your little ones, watching them grow, play, and reach new milestones!

Sincerely,

Ms. Hailey
