

A Little Bit About Me

When I am not teaching I love hiking, camping, skiing, or simply just enjoying and exploring the outdoors with my two dogs.

A Few of My Favorite Things

Season | Fall

Food | Pasta

Book | Este dolor no es mio

Place | Lake McConaughy

Meet Viviana

Hi! I'm Viviana

I am originally from Colombia. I am very happy to be a part of your child's growth and early development journey. Working with infants and young children truly comes from my heart. I love supporting children as they explore the world, express their emotions, and grow through play, connection, and loving care. I am certified in Early Childhood Education, with training in Child Pedagogy and Psychosocial Development. I have more than three years of experience working with infants and toddlers from 3 months to 3 years old.

I believe in respectful education, nurturing relationships, and creating a safe, warm environment where children feel valued and secure. My favorite "language" is the language of love, patience, kindness, and connection. I also have a university background in Environmental Resources Technology. This education has strengthened my awareness of safety, health, and risk prevention, which are very important when caring for young children.

Outside of work, I enjoy preparing healthy meals and desserts, riding bicycles with my family, and listening to music. Jazz and blues are my favorite styles to relax at home. I feel honored to support families and to be part of children's early experiences, helping them build confidence, curiosity, emotional security, and joy in learning every day.

Sincerely,

Ms. Viviana
